FOR KS3 CURRICULUM LINK - LEARNING FOR LIFE AND WORK

An Easy Guide to Recording your Advert

There are so many ways to do this but the simplest, quickest and most cost effective ways are:

- 1) Use an mp3 player that has a voice recorder and USB function
- 2) Use a voice recorder on your phone and email the file to yourself

We're not looking for studio quality. We just want to be able to clearly hear the lyrics and diction. When using either of the above tools, all you have to do is get ready to perform your advert, hit the record button on your device and away you go!

Downloading from mp3 player

- Simply plug it into the USB slot on your computer and open the files when prompted to do so. Select your song and save onto your desk top.
- Then create a new e-mail message and attach the MP3 file and send to lindsay@nigoodfood.com

Using a voice recorder

Once you've recorded onto your phone, depending on what type of phone you have, you should be able to send the file either to your email address or to another phone which has this function. Then simply email the MP3 file directly to lindsay@nigoodfood.com

Please remember to email this with your Employability Entry Form to lindsay@nigoodfood.com

Have fun and good luck!!!
